THE MATERIAL

NOVOMATT is a technologically advanced and unique composite material, consisting of a high percentage of natural mineral fillers and a low percentage of high purity polyester and acrylic polymers; it is therefore an inert, hypoallergenic and non-toxic material. It is coated with a technical enamel with opaque aesthetic effect. This coating combines excellent resistance characteristics with complete restorability of the surface.

Construction of the Code: **Code** + **Profile** = Final product Code

CUSTOM SHAPING

NOVOMATT plates can be cut by the installer up to 2.5cm from the edge, Novellini offers a cutting service in length and / or width **by communicating the measures at the time of order**. We also provide shower trays with cut-outs made to measure to shape the shower tray exactly to the space available. The cuts must in any case be straight, curved or arched cuts are not permitted (**out-of-square cut up to 2.5 cm***). It is also not possible to cut the shower base around the drain to an area of 40 x 40 cm.
